Bachelor of Computer Application

[Shivaji University](#)

 2021 - 2024  Kolhapur

- Completed Gym Management System project demonstrating programming & database skills
- Participated in college activities, enhancing teamwork and leadership

Master of Computer Application

[Chandigarh University](#) (Distance Learning)

 2025 - 2027  Punjab

- Gained hands-on knowledge in advanced database management and data analytics.
- Built skills in SQL, Python, and Power BI to support a data-driven career.

SKILLS

Python	SQL	Tableau
Advance Excel	Data Cleaning	AWS
Machine Learning	NumPy	Pandas
Data Visualisation	Git & GitHub	Statistics

PROJECTS

Real Estate Housing Price Analysis (Power BI)

<https://github.com/Tanmaypatil12/Real-Estate-Dashboard1>

- Developed an interactive dashboard analyzing housing price trends with dynamic KPIs.
- Cleaned and transformed data using Power Query; identified key price drivers.
- Enabled real-time insights through interactive filters and drill-through features

Lead Conversion Analysis Dashboard (Power BI)

<https://github.com/Tanmaypatil12/Lead-Conversion-Analysis-Dashboard>

- Built a dashboard analyzing 10,000+ leads with key DAX metrics for conversions and ROI.
- Optimized top-performing channels and reduced funnel drop-offs by 12%.
- Automated reporting, boosting accuracy and increasing qualified leads by 20%.

Telecom Customer Churn Analysis (Python & ML)

<https://github.com/Tanmaypatil12/elecom-Customer-Churn-Analysis-and-Predictive-Modeling>

- Built ML models (Logistic Regression, Random Forest, SVM) to predict churn, reducing it by 20% and saving ₹10M.
- Identified key churn drivers from customer data for retention strategies.
- Performed data cleaning, feature analysis, and model evaluation in Python.
