 Pune, India |  Experience: 3.5 Years

Professional Summary

Java Backend Developer with 3+ years of experience in building scalable and high-performance backend applications using Java and Spring Boot. Skilled in designing RESTful APIs, implementing business logic, and integrating databases using Hibernate and MySQL. Experienced in microservices architecture, Agile methodologies, and production support with a strong focus on reliability and performance.

Technical Skills

Backend Technologies: Java, Spring Boot, Microservices

Frontend Technologies: JavaScript

AI Technologies: Generative AI (GenAI), Large Language Models (LLMs)

API & Integration: REST API Development, API Integration

Database: MySQL, SQL

ORM Tools: Hibernate, JPA

Tools & Platforms: Git, GitHub, Jira, Maven

Testing: JUnit, Postman

Development Practices: Agile Methodology

Core Concepts: OOPs, Design Patterns, Collections Framework, Exception Handling

Work Experience

Software Developer – Capgemini

 Dec 2022 – Present

- Developed and maintained backend services for a digital membership and rewards platform using Java and Spring Boot.
- Designed and implemented RESTful APIs for user onboarding, membership management, and partner integrations following MVC architecture.

- Implemented business logic, input validation, and global exception handling for secure and reliable applications.
 - Integrated backend with MySQL using Hibernate/JPA and optimized SQL queries to improve performance.
 - Worked on microservices architecture ensuring smooth inter-service communication using REST APIs.
 - Performed unit testing using JUnit and resolved production issues to maintain system stability.
 - Collaborated with cross-functional teams in Agile/Scrum environment including sprint planning, stand-ups, and code reviews.
-

Projects

Student Offers & Digital ID System | Duration: 36 Months

- Developed a platform for student discount memberships and digital identity verification.
 - Enabled access to offers across food, electronics, and lifestyle domains.
 - Built backend features, integrated partner APIs, and improved system reliability.
-

Education

B.Tech – Electronics & Telecommunication

DY Patil College of Engineering and Technology, Kolhapur (2022)

Marks: 81%

Diploma (12th Equivalent) – 2019

Marks: 67.63%

10th – Maharashtra Board – 2016

Marks: 78.21%
